**Job Title: Craft Technician (Electrical Apprentice)**

**Reporting to: Maintenance Team Lead E,I&A**

**Location: Direct Hire**

**There's never been a better time to be working with LNG Canada.**

Why? Because we're building Canada's first large-scale LNG facility underpinned by safety, continuous improvement, quality execution and ethics and compliance. Our industry-leading liquefied natural gas (LNG) export facility will provide the world's cleanest LNG, with the lowest carbon intensity.

This is your opportunity to be part of history, in an environment that will challenge you to apply all your skills, and where you can learn with a diverse team of highly experienced industry professionals and mentors.

LNG Canada maintains a healthy, respectful, and safe environment for all our employees, contractors, partners, and communities. Protecting our people, community and our operations is our top priority. Our project has committed to meeting some of the strictest regulatory standards in the world.

With gratitude and respect LNG Canada acknowledges our facility is under construction and will be operated on the traditional territory of the Haisla Nation. We also gratefully acknowledge the First Nations in our project area and along our shipping route.

**Our Vision:** To be the leading LNG export company in British Columbia and the world.

**Our Mission:** To set the benchmark for economically, environmentally and socially responsible LNG development in Canada.

**Our Values:** Respect, collaboration, integrity and safety.

Come join the team making Canadian history!

## About the Role

The Electrical Technician Apprentices will report to the E,I&A Team lead and they will have the opportunity to gain extensive experience working alongside the maintenance Technician team on the process, utilities, and marine equipment. Commissioning and Start-up will broaden the learning opportunities with the possibility of apprentices contributing to quality assurance activities.

The electrical apprentice's responsibilities include completing all tasks assigned by the maintenance team lead, which may include assisting with installations, troubleshooting, repairs, and calibrations of electrical systems and equipment. You should be eager to learn, responsible for time management, and able to follow instructions.

### To succeed with us in Maintenance & Turnaround, we need your enthusiasm to:

- Learn and grow in a dynamic Team environment
- Demonstrate a relentless commitment towards personal and process safety
- Be curious and passionate about raising the bar every day to preserve and improve long term asset value
- Demonstrate pride and care when dealing with people and your work, knowing that every day you have an impact on safety, your community, and the environment.
- Display a strong positive attitude to manage change and improvement in our dynamic processes, ways of working and our overall performance as we evolve into a fully operating asset.
- Utilize flexible innovative thinking with well-developed problem-solving skills
- Develop strong working relationships both inside and outside of your team to boost co-operation, and a One Team approach transcending into multi-disciplinary delivery.
- Drive knowledge sharing to accelerate overall team competence.

### You will be responsible to:

- Observe and comply with Health and safety protocols.
- Learn from the certified Journeyman Electricians and complete assigned duties safely and effectively.
- Identify, analyze, troubleshoot, and assist with repairs of equipment and electrical faults.

- Complete electrical installations ~~under~~ and carrying out various maintenance duties under supervision.
- Read and interpret technical manuals, blueprints, and schematics.
- Develop strong analytical, troubleshooting, and problem-solving skills.
- Identify and escalate all safety observation and opportunities for improvement
- Support site continuous improvement both in terms of efficiency but also digitalization initiatives and opportunities to drive best in class performance.
- Drive best in class performance by embracing a learner mindset to become a digitally enabled technician of the future, leveraging data, technology, automation and analytics.
- Effectively manage updates to logs and Digital maintenance systems.

#### To be successful, you will have:

- 3<sup>rd</sup> or 4<sup>th</sup> year Industrial Electrician Apprenticeship status
- Have at least 2 years of relevant apprenticeship work experience
- Fluent and articulate in English
- Valid Driving license

#### This role requires that you:

- **Be legally entitled to work in Canada (i.e., by way of Canadian citizenship, permanent residency, or valid work permit)**
- Successfully complete successive years of industrial schooling on time, and with the outcome of Red Seal Journeyman
- Know that this role is based in Kitimat, BC.
- Relocate to Kitimat/Terrace, BC
- Target to start January 2023
- Are willing to work outdoors during inclement weather in all seasons including heavy snowfall and periods of heavy rain.
- Are able to climb ladders and stairs, work at heights and in confined spaces. Plant design conditions provide structures that are significantly taller than common in industry, and individuals must be comfortable with heights as well as travel to and from the workface at heights.
- Are able to work wearing a respirator or Self-Contained Breathing Apparatus (SCBA)
- Are willing to comply with LNGC's drug-free and harassment-free work environment and comply with all safety policies and procedures.

- Undergo a pre-placement medical assessment of your fitness for duty, a background check and Pre-Site Access testing for alcohol and specified drugs.
- Live in the beautiful District of Stikine (Kitimat/Terrace). For applicants located outside of the region, you are encouraged to explore what Kitimat has to offer in terms of lifestyle including schooling, local amenities, outdoor adventure, and housing, to ensure Kitimat is where you would like to call your new home.

### **We Offer:**

- A Comprehensive LNG Canada relocation package (if required)
- A full suite of benefits including a flexible Medical and Health plan
- A Defined Contribution Pension plan with a matching program
- A competitive vacation offering to ensure a work life balance
- See attached document for more information about Kitimat and LNG Canada.

### **About Us:**

LNG Canada is a joint venture comprised of Shell Canada Energy (40%) and affiliates of Petronas (25%) PetroChina (15%), Mitsubishi Corporation (15%) and Korea Gas Corporation (5%). The joint venture is building a liquefied natural gas (LNG) export facility in Kitimat, British Columbia.

LNG Canada sets out to be a project of choice for British Columbia and Canada. Safety, shared economic value, environmental performance and social performance are our highest priorities. We have partnered with governments, local communities, and First Nations to maximize shared value.

Do you have a desire to learn and become part of an organization with a supportive and collaborative culture? Concerned you don't meet every job requirement? Studies show diverse candidates are less likely to apply unless they feel they meet every single qualification. LNG Canada hires for character and trains for skill. We're dedicated to attracting a diverse and inclusive workforce, representing the communities in which we live and work. We encourage you to apply today.
